PROFESSIONAL SUMMARY

Highly motivated aspiring Full-Stack Developer with a strong foundation in modern web technologies, eager to build high-performance, user-centric websites and landing pages. Specialized in Python backend development (Django, Flask, FastAPI) and proficient in frontend principles (HTML/CSS, JavaScript, Bootstrap), cloud automation (AWS, GCP), and RESTful API design. Committed to collaborative development, structured problem-solving, and optimizing for user experience and conversion logic, with a keen interest in adapting skills to platforms like WordPress.

PROFESSIONAL EXPERIENCE

Junior Software Developer (Volunteer) at Messianic Assembly of Yahweh (MAY)

2024

- Led full-stack development and deployment of a responsive website, integrating Flask/MySQL backend with Bootstrap frontend to streamline church management and outreach.
- Configured and maintained cloud servers, leveraging AWS services (e.g., S3) to ensure website performance, security, and scalability for client-facing products.
- Collaborated with stakeholders to gather requirements, translating organizational goals into functional technical solutions and enhancing design and usability.

Digital Publications & Leadership Intern at Transform.Ed program

2025

- Contributed to email campaigns and newsletters, directly impacting audience growth and engagement for lead generation initiatives.
- Refined content strategy and collaborated with cross-functional teams to ensure consistent messaging and high-quality lead generation.
- Authored Standard Operating Procedures (SOPs) to scale and document efficient publication workflows, promoting a clean and structured operational approach.
